RE: NORTH CENTER POINT ROAD BOX CULVERT
EMERGENCY REPAIRS

Dear Ms. Pickart:

It has been brought to our attention that during the process of extending the concrete box culvert under North Center Point Road, near the Wildflower Subdivision, a concern for the structural integrity of the culvert has been brought to our attention. Snyder & Associates has visited the site and agrees with the City and Contractor's assessment that the structure is unsound, and cannot be repaired without replacement of the entire structure.

With that said, we feel that the delay caused by proceeding with Iowa Code Chapter 26, Public Construction Bidding, requirements will unduly present risk to the travelling public until the culvert is replaced. We recommend the City institute emergency proceedings to replace the culvert immediately.

If you have any questions, please call us at (319) 362-9394.

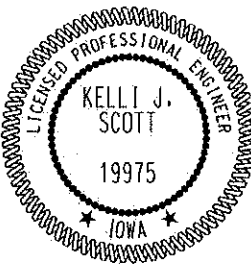

Respectfully,

SNYDER & ASSOCIATES, INC.
